

Miss M. Carey Thomas
Bryn Mawr College
Bryn Mawr
Penn.

101 W. Monument St
①

May 22^d / 89

Dearest Minnie,

Of course Mamma
has told you of Dr. Osler's
unqualified utterances on
the subject of women
physicians & of his
opinion as to their ad-
mission to the Hospital
and the Medical School.

② He says (as quoted by
Wm Luba & Bessie) that
he has always had an interest
in the education of women
and particularly in their
medical education that he
wishes to help to bring out
and train more physicians
he needs in whom he
appreciates more every
day that he has lectured
Wm Luba in London &
in Philadelphia & shall
lecture Wm here &

That he is anxious (not
merely willing) to have
some women among
the witnesses - ⁽³⁾ - Mamma
Bessie also said, did not
approve of his attitude
in his open expression
of his opinions, but I was
delighted to hear of it.
Please find out as soon
as you can about the
people -
I have been in bed

④ or too busy since getting
back home. He promised
letters to Drs. Hall &
Hastwell, but will try to do
so soon. — To-morrow I
expect to take another holiday
and go to Mount Vernon
for the day with the McLanes &
on ~~Saturday~~ I get off from
New York wh. will with
least a holiday —
I hope you are less tired.
I saw Bessie this evening

and found her welched²
blue, poor  child, 5
dreading the possibility
of another attack of
pneumonia - I hope
Dr. Osler will be able
to cheer her up a little
when he makes his exam-
ination this afternoon -
She said she hardly thought
now that she wd be able
to go to Bay - Mann at
all, but wd go even if
not to stay one day if

⑥ She got well enough —

Christine's note was
of course not a surprise
to me — Have you any
suggestion to make for
Clark? I sh'd like to
see a copy of yr. reply
to her letter, if you don't
mind sending it on —
What did you think of
the other letter?

I stopped at the Hospital

This ring is see about
The details of plaster
finish & was met at
Bedon by Mr. Gilman
who was very polite &
nice offering to stay
for with me himself
wh. I naturally declined.
He was still looking
ill, I thought —

Try to take a little
time to write me —
Sincerely yours, Mary S.
