Dearest Annie,

I hope you girls will
not be appalled by the sight of
the 3 big envelopes that I have
just posted to you - They are not,
as you will soon find, as prettily
as they look, and I do hope we
can turn very soon get the Gymnasium
business out of the way, &
at least under way - Julia &

I went to the building this afternoon
and it is really beginning to look
much more as if it would some
day be ready for occupancy & some of
the rooms already look very attractive

I do hope you girls will appreciate

(2) The suggestions about incorporation
Constitution &c. — I know if
you girls do understand about
the matter but not so apparent
those at this end of the line
and what is going to come of
it all I don't know — I wish
you were with coming home this
week, as I don't very much
whether anything but a com-
mittee meeting will adjust
matters —

As your accusation was unjust
it was not only our unpt. monthly
committee meeting & incorpora-
tion Nat. would have made it
impossible or rather very
unadvisable for me to go
back with you on Saturday
if you had been going; but

you can pick up any time Nat³
in most convenient to you now,
and I hope I can safely say Nat
if I do not come then, I never
want you to ask me again.

It is lucky my Nat did
not leave me this week. On
all Sunday I was miserable &
at 8.30 had to give up & go to bed
where I stayed until this morn.

I thought the envelope Nat
came this morn with the enclosure
looked as if your eyes were
better & do hope I was not
mistaken & that the trouble has
passed & he will promise that
a visit for a change of places.

I suppose Bessie has already
written you of the change of
place. She is delighted apparently.

④ and was very bright this morn
 when she stopped. I'll see
 about it after having been by
 the Walters Gallery and to see
 Dr. Oller. If she of does not
 catch cold here, it will be long
 for her. I have the whole winter
 at home and will simplify
 matters for her all around.

I began at last to do my duty by hearing
 classes last Friday. (When I left the
 bus. Colvin's report had come in)
 and was delighted with the
 excitement I heard of this week.
 TV - Nat day. I hope to be up to
 you again in a day or two.
 Truly yours

wanted very much had my birthday

⑤ June 11. I was sure I had been invited
 to meet Beacie about 2:30 for dinner
