I will  
keep you  
M. M.

101, WEST MANHATTAN STREET.

New York, Apr. 28<sup>th</sup> / 93

Dearest Minnie,

Your note this morn'g was a  
great blow, for it made me sure  
that something had happened to  
make you mine doubtful of your  
speech, del. wh. came an hr. ago soon  
after Dr. C. had come tells nothing  
so bad as I feared. For I cannot  
see how an honourable man  
can accept the position when  
he knows all the circumstances.  
But it is most trying and I am  
so grieved and so distressed about  
your distress - I don't wonder  
you had difficulty in keeping up  
after such a fall - The letter

seems to me advisable and it  
certainly ought to prove convincing  
and make them realize that they  
can never hope to get such service  
again. I am so glad to hear that  
Dr. Howards is going to light up if or  
not; I was afraid he was still  
too ill to do any real work, but  
it is the greatest comfort that he can  
and that he realizes the gravity of  
the situation in the College so  
fully.

I don't understand why I do  
not hear fr. Mrs. Muir; if a  
letter comes fr. her to-morrow,  
please telegraph me whether she  
says yes or no, as if it is no,  
it will not be necessary for me  
to be home on Sunday and I

think I ch'd decide to stay on here  
until I go to B. M. on Wednesday —  
as Mr. & B. are not ready to go next  
week, so that the next week is safe  
enough for them & I think it wd  
not be better all round for me to  
stay on — I may possibly decide not  
to go in any case before Monday.  
Of course address here until I let  
you know.

I have had a dissipated day, as  
I watched the parade fr. my balcony  
before I had my massage. This  
morn'g & then went to my lunch-  
wh. I need not have been afraid  
of, as she had Marjorie & Dr.  
Wilson, a Balt. woman, who  
had her degree in England &  
was working with her & who did

I am fairly kindly to me & it is hard w<sup>th</sup> I know w<sup>th</sup> of our Mags  
are full with yr - I simply y<sup>ou</sup> may with the best of the Mags

4  
w<sup>th</sup> seem to me interesting - Her 2  
Orders before calling in for the Dr. &  
now I shall printed again - That  
Lady has just gone in yr w<sup>th</sup> have  
had a longer letter, as she wished to  
repeat her acknowledgments, but I  
am sure that there was an error the M<sup>ag</sup>  
day & there was - the <sup>five</sup> percentage being  
12 instead of 90, so I begin in  
the night -

Tell me what yr have heard abt  
Charles Taylor's attitude - of course  
yr are counting on his vote, but will  
he influence any M<sup>ags</sup>?  
What can I say except the one thing  
that yr have heard so often, that  
I love yr so much, my darling,  
and that I hate to have yr so  
much at the mercy of those men -  
Goodnight, my dear one, and please  
don't cry + please by friend me all M<sup>ags</sup>

④ I'm sure by the interest of - Nov 2  
I should be glad to help in the D. C.  
I'm sure I shall be glad again - That  
I had just done in yr old love  
that a copy letter, as she would be  
repeat her name & then that, but I  
I'm sure that there was even the way  
they there was - the <sup>three</sup> percentage being  
of 2 instead of 90, so I began then  
to-night -  
I'll see what yr have heard of  
Charles Taylor's attitude - of course  
yr are coming in his case, but will  
he influence any others?  
What can I say except the one thing  
that yr have heard of yr, that  
I'm sure yr much, my darling,  
and that I hope yr have yr -  
I'm sure at the mercy of those men -  
I'm sure, my dear one, and please  
don't say + please by hand me all the

⑤ I am fairly hungry for me it is hard to know more of how things  
are going with yr - I'm sure yr must be happy by this way - D.
