I had a late moment as I knew
I shd not. She came at 1¹⁵
I lunched at 2, at 3 I had
to go over to Pembroke, at 4
I made tea & a kettle took
this time $\frac{3}{4}$ hr to boil but
did not explode. At 4 $\frac{1}{2}$
Miss Munton wished to walk
so she & I tramped thro
snow & lusk till 6¹⁵. At
half past six we dined &
talked till 9⁴⁵. She
is nice again, not clever

②
but nice. Talked ab her
friend
a little about mysluism
Iguelism much - she is
clearly finding correlation in
Sharlons & Scholans of that
kind, considers her life over
I done with - etc etc
