Dec. 9. 1890

Dear Mary,

This is a bill for the part
of Mrs Heaton's work that seems
to me to belong to the med. scheme
I had her make out 2 bills
& paid her separately. You owe
me the money there \$36.20

I enclose also a memorandum
of some postage and telegrams
that are obviously medical,
not including of course my
unnecessary telegrams to you

can retask her article. I
have practically given
up Chicago since Dr Stevenson
had to be chairman. I have
not breathed a word of this to
Beere. Only one thing
is clear to me — neither
you nor I wish to write that
letter — Dr Brayton of Chicago
has just written to B. to
say that she will help Dr
Stevenson in every way & that
she thinks letter desirable.

Yrs R.C.S.

Have you written to Mrs Storer?

Bessie is simply raging ab. it

Bessie is still worrying ab.
a letter to the women's Club at

Chicago - as she knows Dr Stevenson

and you object to her writing

to ~~see~~ ask her whether she thinks

it necessary & if so offering

to write it. I cannot write

it & do not wish to write

it & I do not think you wish

to write a long letter to be

read there; & if Bessie

does it might do good. She
