Dear Mr. Mary,

I wonder what has happened to yr letters; yesterday I rec'd your note of Dec 13th enclosing my letter with the Braun Shupley seal although it seems to have been in New York since Dec 24 & today yr little scrap of a note of the 23rd saying you left Venice on the 26th mainly ab. the Venice chromolithographs, so you see for over two weeks I have

had nothing & it was a little provoking because even if you
had time to do no more you might have sent a note to
say happy Christmas or happy New Year or many returns of the
day on Jan 2nd. Of course your letter to Franine came the day after
Christmas and I was much pleased by that. Some roses came
& yr very sweet Christmas card & a darling little Dante
wh. I shall do myself the honour of reading thro. next Summer
but none of these was a letter and I made up my mind
you were displeas'd about my "unopened & unread" letter &
did not ~~write~~ intend to write. I was consequently dismayed
to think of the avalanche you had received from me
Christmas & New Years & photographs & concluded not to write
myself so I let Dec 27th pass & Jan 2nd. Yesterday came your
little note of Dec 13 & I am sorry - if it had arrived in time
I ~~sh~~ have written. I am very sorry you ~~more~~ minded
my note & very grateful to you for giving me
the chance of thinking twice - I enclose a part of the
same letter - details you may wish to know & I may not

③

have time to write out again
out of date tho. they are I
hope you will ~~send in that~~ ^{approve of sending the} letter
I sent you - If one thing now
gives them a chance for a fight
we shall lose - & we cannot
elect our Trustees to Dixon &
Lawrie Riggs until after
Feb. 1st " Moreover Mr Gilman
has sent a formal letter
demanding to be made a
Trustee in such a way that
it looks as if a refusal
will mean his resignation
~~sent~~ I spent at least
3/4 of my holidays over
the horrid thing & it is

dreadful to be involved in
such back stairs politics

Your calculation seems
to me based on land which does not
yield 50¢ & to take no acct
of taxes but I will go over it
later in more detail.

I am writing in great
haste to catch the mail
and am so distressed you
are unwell. Please move
about till you find a
place that suits you &
try not to get blue &
I will try to help not whether
I hope I usually do —

Now goodnight & good bye
I wish we were in that ^{Christmas} gondola
to-night & that you could tell you
me you forgive every thing ~~and~~
as I forgive you — This is the
merest scrawl

Lovingly yours

a Holyer or a Copy unless you can find an aesthetic photographer
in Venice still if you are to be in Italy this winter you had better try
& remember to send me my Holyer too - but I do not believe you will
~~do~~ ^{be} so any more - All you say about yr servants & yr two establishments
is of course true & yr photos like you to have By the way you ought
I think to have thro. albums for all yr photo. for on Thanksgiving day
I got Mamma to come with me & we looked over them to get the Braun
nos of some Michelangelo drawings I wished to order & also to get
yr Sistine Chapel photos I got that some of the loose photo. had got
wedged in the cracks of the flaps of yr ~~case~~ wooden drawers
& were bent. However they will not be disturbed again I suppose
will you return. The Sistine photos I cd not find. If you can get
Mrs McDowell to find them I will have them catalogued. The case
under the book case between the two Monument St windows at the end
of the room I cd not find finish exploring so they may be there.
Julia & yr aunts had left long ago & the uninhabited gloom I sup
was regnant in yr sitting room but all the exhaustion of those
last two evenings I was in Ballo before you sailed came back upon

(10)

me & I th't of how we had
lain at either end ^{of the window seat} that last
night in utter exhaustion & of
my surprise to find when I moved
beside you & you laid yr hand
on mine that tired as I was —
well that I was not too tired to
care. I am growing more &
more satisfied with yr decision
to stay away for if associations
have such a power to love
me who am strong you ed scarcely
have failed to feel them
much more strongly. Now I will
just get over the details I want
to touch on before I come to the
chief part of my letter

I must remove the reference
from Mr Marshall. He answered

my letter most probably by the
next mail & told me what I
wished, saying he had "misunderstood!"

A woman from Pilsbury wrote to
know ab. \$15 subs. to Med Sch -
& it too has been forwarded to
Camilla.

At the Freshman entertainment
Kate Luman in very low evening
dress danced adorably a minuet
looking like a vision of beauty
Her head is set on her shoulders
~~so~~ charmingly - Miss Fowler,
a great friend of Miss Luman's
is here, a Virginian, & the
Alta R. Sroble's Sroble's
daughter from Baltos. where

Dr Warren my School teacher is a very agreeable witty talker,
a man of the world as well as the first physiological chemist - so Dr
Burdick & Stanley Hall of Clark say - in this country - so far a prof. I like
him "immensely" Personally I do not like or know any prof. You may be
absolutely sure of that. Dr Loeb my German Jew is a genius, a
gentleman, charming, & a physiological psychologist - just what
I wanted - who admires James' psychology as much as I do. His wife is also
very intelligent & a lady - Our physicist, a Canadian, Dr MacKenzie
is one of the ^{best} success dinner club I know any where & Dr Tomblaine
our Romance prof is the most finished of French educated
with the priests at St Sulpice; he is not only so far a very successful
teacher of French but a most well read intelligent talker ^{ful}
on every subject. Every Thursday we give a dinner of 4 or 6 &
in this way I am getting to know our new men - My efforts this
year to get gentlemen as well as scholars have been so crowned
with success that I am rather overwhelmed at having
So agreeable well bred gentlemen added to the Faculty ^{name}
Howard's first cousin Morgan is most attractive too &

(13)

Our Semetic prof Barton is exactly what I longed for. His lectures on the Bible are a triumph of to have delivered here. - Altogether so far I am most pleased & consider they are at least something to show for my ^{wasted} summer. Another \$5000 to the lab. came in last week from Mr. , a Philadelphian.

Miss Oster's engagement to Dr Abbott who has accepted a call to Phila is announced, & there is said to be another over there - prob Miss Hamplin & Dr Robb - not yet out.

Bessie has been ill ever since Sunday, allowed to see no

one till today when I saw her
 This griffe Oler says when she is
 really ill in bed I cannot help
 loving her again She is heart
 & soul with us in this med. mal.
 & we have not had a ripple
 of disagreement - Anything that
 is proposed she will carry out
 The building still blocks
 the way & this week ~~we~~ Beebe
 name & I have agreed on this
 and I have talked to Father
 & Cousin Frank & name to
 Mr Swinn - to keep out Gilman
 from board of trustees for he
 is determined to be elected &
 abstractly of course so he

15
we have general
I put in Deyon, to build building to \$150,000 including arch^{hd's}
fee & every thing. Then I have done what I can to stir up Mr
King on Med. Sch. & he is to visit hospital ~~ch's~~ tomorrow Monday, but
Gilman blocks all progress. He is determined yr 100,000 shall
leave - After the meeting Monday week we can try a fresh. I enclose
McGinnis's statement It is strictly confidential - They will call
their BOD & will div & value \$60,000 in addition, but you see
the mystery of it is that there is a solid majority & all McGinnis's
influence against approving any of this to the Med. Sch. &
They have bound themselves by vows not to open without \$500,000. After
the next meeting we shall know where we stand better
At least one more vote will be secured for us when we know
exactly what we wish.

I had a long interview with Mr Pennington & as ^{McGinnis's} ~~the~~ ^{my} ~~bid~~ was \$1000 lower than any one else's much to my
regret I had to accept it. It is \$3500 to be paid when
work accepted & I made Mr Pennington put in a time
clause. The work is to be done in 60 days & \$10 a day per diem

For every day over that time
I will send you the contract
as soon as made out.

We have decided to
go ahead with our injunction
& I have got George Carey
to associate with himself
Mr Arthur George Brown, who
every one says stands exceedingly
well before the bar. The
case will be tried before
y^r drunkard of a former
friend Judge Dennis & we
are waiting now for Brown's
opinion. I told George we
w~~ould~~ not go on unless we
were sure to win. I was afraid

what you said ab Dr Guter
 extended to his brother the real
 estate agent, altho. I can scarcely
 believe it, Her lord George we
 wished Mr Ball only asked
 whether he wd join with us - The
 off large block of houses dwell
 behind the mill is being erected
 by the brother not Mr. Goucher.

The chimneys are capped
 & look fine & draw gloriously
 no soot, nothing except draft
 & blaze.

My school accs are not
 yet made but I see that

(18)
Last year we cleared only a few hundred, if that, over the
balance \$5000 & something we began the year with
this we can return to you of course but alas no rent - I
am going to cut down expenses in every way this year. I see
if that was not an exceptional year. The yard is crowded
with children all day long I see tells me - they are there all
day long & Sat. & every aft. till it is dark. I completely
lost my temper with my expert bookkeeper the other day &
I trust the result will be the books at last. He is terribly
slow - I must needs be arriving

Mem.

In my last letter p. Mr. Ridge (23 Nov.) he
says "Miss Thomas writes me that for
certain reasons she prefers that her
outlays out of the school's funds, viz:
\$1000 paid to Mr. A. & case, & the acct
of duty & charges on 3 cases ex. Borrow money
shd not be repaid now to her —
she says she has written you why —"

When did you write about this?

My
M.D.

I certainly did write you why —
I cannot complicate my acct &
in a week or two we can have a
grand settlement & return you
the cash for the you have
made — subtracting these amts —

cheques
you can then give me
or if you prefer
