Dear Mary,

Enclose a letter from our dear little Jack in the Box - Her cover is off again & her spring as strong as ever. Please for the sake of the charm in tender green & childish faith and consuming enthusiasm let me know at once so that I may write to the child what you told her when you wrote - How long did you say she might stay - what about the "toys" & the "books" - Did you send her a "plan of the gymnasium"? Of course she must wait about the apparatus do you not think so? Before you finally order it I want to tell you, exactly what Carrie Sudd says to these pieces Dr. Hurd wants & the first time we can I want you to let me go with you to Dr. Hall's gym in Baltimore to see the Sanders she has in use - I understand they

② Have some pieces - have they not? Considering that in
that Frankful gym. Dr. Hurd so admires they have
2 doctors two assistants & eight little girls tearing
about the whole time to assist the patients, Iacks
little hands will be full with 70 def. children
seated in pieces of apparatus that move with
internal mechanical springs, will they not - ?

Yrs M.S.

Sincerely
Yours

B.M.S.
