

My dear Susan,

Your letter  
has just reached me  
this afternoon and I  
am sitting down forth-  
with to send you my  
warmest approval of  
your plan - I think  
your idea of putting  
matters entirely into  
the hands of the Under-

graduate Association<sup>2</sup>  
is a perfectly splendid  
one - and I almost believe  
that it will really be  
easier for the Association  
to enforce the fair reg-  
ulations the Dean suggested  
to us in her "talk" than  
it would be for the Dean  
to do it herself. For the  
Dean, naturally, is not  
as near the girls as  
the girls are to one

③ another and if "Public Opinion"  
were against the doing of certain  
things the fear of being ostracised  
would I think keep most girls  
from doing them - Believe me then  
heartily in sympathy with your  
movement x

Very sincerely yours  
Margaret Dudley
