FIVE HUNDRED AND THIRTY-FIVE
PARK AVENUE

Thursday afternoon

Dearest Marie: You will be glad to hear that I am quite all right again today and am feeling as well as possible. I slept soundly all night on the train and as we were an hour late in reaching New York I was well rested by the time the porter came around to bid us get up.

We found the Manfields ready to welcome us and this evening they are to take us to the Hudson theatre, but what we are to see I cannot tell you. Apparently it is something worth while for the only way Manfield chanced to get the seats was that four were returned just as he made his application. We have had a very pleasant day mostly at the Metropolitan Museum, where we had luncheon with

Sept. 25-19

Mr. Bosch-Reitz. It is warm and sunny
New York is almost always delightful
at this season.

Before going to the museum we went
to the General Railway Ticket Office and
secured our accomodation for Washington
and I bought my ticket for Chicago on the
Chicago limited leaving Philadelphia at
1.11 on Monday.

Sorry to hear from your letter that
was here awaiting us this morning that
Mr. Brewster has had such a trying
summer. I do hope we can take him
with us next summer.

Mr. Hopkins' printers are all out on a strike
& he is getting out the Year Book without any
help! He is to have the proofs of the memorials
here in the morning. I talked with him over the
phone just now and he was in a gloomy mood,
says the printers do so little work it is impossible
to pay their prices.

Lots of love dear and
Your devoted
Frederick
