SELF-GOV. MEETING

Resolution V—Smoking Rule Amended.

FOUR MORE MEETINGS

At the meeting of the Self-Government Association, December 9, M. L. Jones, '27, President, announced that the Executive Board thinks that the business of remaking the rules can be concluded in four more meetings. The next meeting is to deal with all the rules that come under "chaperonage."

Resolution V Replaced.

The committee elected at the last meeting submitted a resolution to take the place of old Resolution V. It reads as follows: "Whereas Self-Government implies the co-operation of each member in supporting the authority of the Associa-

Resolved that,

- 1. Each member shail report to the Association.
- duty to report herself.
- flagrant as to injure the reputation of the college or the spirit of the offender to the Board, provided the offender refuses to report herself."

The second question before the meeting was that of quiet hours. D. Meeker, 27, moved that the first three sections of on the advantages to women of a college recite (for he knew the play practically the original rule be kept—that is, those education. HOW CAN JESUS SAVE? ASK DOCTOR PHILLIPS

Reveals Us to Ourselves, he Answers.

"The answer to the question 'how?'" was the subject developed by the Rev. Harold Phillips in Chapel on Sunday, December 12.

In this age the intellectual question is the popular one. We do not take things on faith today; we count more on science than on inspiration. It was the same with Nicodemus, when he went to Jesus tered Bryn Mawr, she had a large for- American and English stage, ignores OFFER ART TEACHING TO he was told that he must be born again, he could not understand. "How can these things be?" he asked. In answering him, Jesus was anticipating our modern attitude in applying science to religion.

One of the most important questions bothering us today is "How can Jesus save men?" The scientific mind is the first to admit that there are things in nature that cannot be explained, and so it is with this query. But there are two or three things inherent in the change Christ means to human life that are explicable.

Reveals Ourselves.

The first of the ways in which Jesus cember 9, resist the disturbing force, and make paid workers. many excuses in refusing to compare our. As Long as Conditions Are Not Static There Will Be Little Unrest.

SAYS DEMOCRACY IS NO FAILURE YET

Modern approaches to socialism was the topic on which Mr. Kenneth Lindsay, recent Oxford graduate and worker in the English Labor movement, spoke on Tuesday evening, December 14.

"It is futile to compare anything English with anything American," began Mr. Lindsay. "Words, such as socialism, have such a different meaning here and there. It is not mere generalization to so say that it is like coming from a world where everything is questioned to one, where everything accepted to come from England to America."

Workers' education, in England practically well established, here non-existent (Specially Contributed by Betty Brown) except on paper, was taken by Mr. Lind-The second meeting of the National say as an example of what he meant. In Student Federation Conference, held at England, a university graduate goes to Ann Arbor, Mich., the first week-end in a mining or pottery making district and 3. Such a change in organization, in the opinion

Dr. Meikeljohn Speaks.

Dr. Meikeljohn spoke on the subject of the outstanding problem in American education: "Can the average young American be educated?" One means by a liberal education "the process of so informing and training and inciting the mind that it will go forward steadily on the road to understanding of the life to which it belongs." He went on to say that the American college of today is to no great extent fulfilling the con-Romeo and Juliet will be presented by ditions of such a definition, and he agrees the Philadelphia Civic Opera Company with Dr. Duggan, saying: "It is not true at the Metropolitan Opera House, on that there are going out from our institutions today, in any considerable meas-On Tuesday, December 21, The Phila- | ure, streams of understanding into the delphia Grand Opera Company will give life of America." In explaining this lack of success on the part of our colleges, he introduces the statement that while America is eager to support teaching MAKES OFFER | financially, it does not understand what much to me. JESUS SAVES

CONTINUED FROM PAGE 1

The one thing that he saw more clearly than the tragedy of sin was the glory of salvation; he is "the world's supreme optimist." He brings us the joy of the "forever becoming;" his message is not one of death. He urged us to be perfect, and talked of the kingdom of God in the midst of the worst possible social conditions. There is no greater thing than putting before the human mind something worth working for.

showed us an ideal that makes life im- the attitude of the professor. If it were possible without trying after it. How can possible for all the students voluntarily to we live for ourselves when he has shown ask for the use of drop quizzes as a us the life of "faith in God." The kingdom of God of which Christ gives us approve of them, and especially if they a vision is surely coming—or else what agree to provisions to safeguard the jusis the effort to outlaw war or to establish tice of the plan used, the threatening associal justice? In Flora Park, Long pect of drop quizzes might be eliminated. public race meetings. Island, there are twelve white families Under these conditions, drop quizzes which, under the auspices of the local could be considered good pedagogy. in public rooms. Y. M. C. A. are entertaining twelve Much better, however, though involving "Undergraduates are forbidden to atnegroes. This does not mean that the more work for the professor, is the use of tend public subscription dances in or near mothers in the families need worry about their daughters marrying negroes—there is a long step between human kindliness and intermarriage. It is merely a forerunner of the kingdom of God.

Finally, the third way in which Jesus saves us is by showing us the means. The wonderful thing about his perfection is that it charms, doesn't repel us. The secret of his greatness lies in the word "God." Christ showed us how we might achieve the life he achieved; by a life of discipline, a life lived with God. He says to us, as was said of a picture of Henry Martin, the young and idolized Indian Missionary of the last century, "Look at that blessed man: be in earnest, don't trifle."

DROP QUIZZES

CONTINUED FROM PAGE 1

"He used to entice us into the lecture room by beginning his talk for the day, and then, after getting us safely in our seats, drop a quiz, grinning broadly meanwhile. Many people have told me that the quality of their work deteriorated under his regime, as mine did." On the other hand, some students find the unexpectedness of drop quizzes an advantage in that, if they are inclined to nervousness, the quiz comes so suddenly that they begin immediately to think of the questions without brooding beforehand. Others feel forever distracted by the imminence of drop quizzes. They cannot help wondering, as they do their assignments, whether there will be a quiz the

Slater Shoes Drop quizzes keep them continually go- ment to adverse criticism, there was a ing over the subject matter. If they know lump in the throat behind that laugh. that a professor is addicted to them they are fairly apt to keep up with the preparation from day to day. The knowledge that a quiz may come at any time urges them at least to keep up with the work if not to get ahead of it.

Also, much depends upon the frequency and the timing of the quizzes. They are just insofar as they are given at a time by which the majority of the class, if reasonably conscientious, has completed the work assigned. It is necessary that the professor be reasonable about the quiz in case the student happens to be unprepared on a lesson. There may have been circumstances which have prevented a good student from doing the work assigned. There should be at least three drop quizzes during the course if any are given. The more quizzes, the fairer they are as a cross-section of the ability of the class.

The above is a resume of the points brought out by the students arguing pro and con on this subject. It seems clear that there are certain acknowledged values which need to be considered and if possible conserved in the system adopted. These may be summarized under three heads:

1. The spirit of interest, if possible of enthusiasm, certainly of mutual confidence and respect, between teacher and student, is vital to the fullest achievement in col-

lege work.

2. Knowledge on the part of the pro-

portant.

3. In view of the human capacity for procrastination, and the almost universal tendency to fall below one's best unless given the stimulus of definite goals and necessary attainments by given times, some sort of systematic, frequent, and impartial check-up on student's work is needed.

Is it possible to get the last two of these desirable ends without sacrificing Christ captured our imaginations. He the first? It depends a great deal upon check on their own work, and to really some very brief, thoroughly objective Oxford. form of written recitation whenever an "Undergraduates are forbidden to visit assignment is due, so that the preparation the bar of any hotel, restaurant, or public of the student may be checked up as she house. goes along and the necessity for oral "Undergraduates may not hire a motor quizzes having been eliminated, there vehicle for a longer period than one hour may still be plenty of time left for class or for a greater distance from Oxford discussion.

CONTEST RULES Cash prizes to winners:

First prize\$2.00 Second prize\$1.00

There are a number of misspelled words in the advertisements throughout this issue of the COLLEGE NEWS. Here are the rules to be followed in competing for the prizes:

- 1. On a sheet of paper write:
- 1. The names of the advertisers in whose advertisements you find the misspelled words. 2. The misspelled words.
- 3. Correct versions of the misspelled words.
- 2, Give your answers to M. Gaillard, Pembroke West, by six P. M. Monday, December 20. The names of the prize-wineners will appear in the next issue of the NEWS. Every subscriber to the NEWS is eligible for this contest.

Board members are ineligible.

Restriction on Oxford Undergrads. Undergraduate opinion at Oxford has been aroused by the publication of a book of "regulations for the conduct of the junior members of the University." The editors of the student organ, "Isis" are annoyed because they are being treated as "merely children."

Some of the restrictions placed on the students in this booklet are as follows:

"It is expected undergraduates will not with good food renders it unnecessary. loiter in public streets, at coffee stalls, or

at stage doors of theatres. "Undergraduates may not attend any

"Undergraduates may not give dances

than five miles without special leave of the Pran of the college.

"A woman undergraduate may not enter the rooms of a man undergraduate either in college or in lodgings without special leave previously obtained from the Principal of her society. She must have a companion similarly approved.

"A man undergraduate may not enter the rooms of a woman undergraduate.

"Men and women undergraduates may not go on the river or for motor rides together unless each woman undergraduate has previously obtained leave from the Principal of her college and there are at least two women in the party."-McGill Daily.

Regulations of Seminary Days.

Present college women cannot fully realize the amount of freedom which they are allowed until they learn how little former generations of women had. The following regulations were given in the Mills Seminary catalogue for 1881:

"While connected with the institution the young ladies will not be expected to visit home except at times fixed by the principal. They do not visit, attend balls, or parties, nor leave the grounds unless accompanied by guardians or teachers, or receive calls from gentlemen who have

SELF-GOVERNMENT

CONTINUED FROM PAGE 1

Those in favor claimed that if the system were recognized, as it is during examinations, everyone would have equal authority: B. Channing, '29, expressed one point of view when she said, "If people don't care enough about quiet hours to proctor, why have any quiet hours at

C. Rose, '27, then moved that the quiet hours be from Monday to Thursday inclusive, from 7.30-9.30 and after 10.15 in the evening, and on Friday, Saturday and Sunday evenings, quiet after 10.30. The motion was carried. V. Newbold, '27, made a motion to have quiet hours on Sunday evenings as on week days: that is, from 7.30 to 9.30. This was also passed.

The original resolution in regard to registration was retained.

A. Dalziel, '29, then moved that all the rules in regard to smoking, drinking, gambling and hazing be kept in their present form. The motions about gambling and hazing were carried without opposition. E. Nelson, '27, suggested that the rule about drinking be omitted as part of the country's laws. F. De Laguna, '27, answered this by saying that the Federal law did not forbid drinking, merely the sale, manufacture and transportation of liquor.

Smoking Rule Amended.

An amendment to the smoking motion was made by E. Morris, '27, including Wyndham garden in the list of places where students may smoke. It was argued that the college did not own this property last year when the present rule was made, and that it is perfectly secluded. This rule, along with the others, will not go into effect until passed by the Trustees.

An attempt was made to have smoking in Philadelphia allowed. Those in favor of this motion declared that it was unfair that people living in Philadelphia should, by the mere act of signing out, be able to smoke, while others cannot. In fact those known in Philadelphia as Bryn Mawr students usually live around here and therefore it is really worse for them to smoke than for the others.

M. L. Jones, handing over the chair to E. Duncan, vice president, spoke against the plan. "It would be very unwise to allow it," said Miss Jones. "It was a great concession to allow us to smoke at all, and there would be many objections if we asked for anything further at once. In two or three years the subject can be taken up again but the time has not yet come. This is not a vital point and we had better leave it alone."

It was voted to keep the present rule with the addition of Wyndham garden.

EDUCATION IS DISCUSSED AT N. S. F. A. CONFERENCE

CONTINUED FROM PAGE 2

is to establish an intellectual community to bind a group of people together, a community based on intellect. . . . If we are to have a community dominated various colleges reassembled to hear the by some single, unified point of view, outcome of the trip. what we need is a small group of teachers where they know each other intellectually well, where they can get their education from each other, and keep on getting it all the time. . . And so in this way our process of understanding will come through the life of the community, and I want to see every young American who goes to college feel the pressure of the community driving him to understanding, the pressure of a small group of teachers who are seeking understanding, and so are driving him to- F. Swansborough, Prope ward it."

President MacCracken proposed six definite ways in which students can help in their own education: "The student and his support, the student and his choice of life work, his political status, the student in his academic and his nonacademic life, faculty research and undergraduate instruction, the choice of

That on By calling a November Conference the Student Government deliberated its function and extent of power and provinces. Various interesting and antagonistic points of view were revealed and concrete suggestions the nature of the growing body, etc) were offered and explained. Other groups to a carefully selected representative discussed Athletics, Fraternities, Methods of Teaching and Curriculum, and dents, and recent graduates who are vitalrendered to the general meeting indi- ly interested in the Soviet social and polividual reports.

The reports showed a common desire to base discussion and criticism on facts, such facts to be gathered if these are not at present available, and to carry on work and exert influence lege, similar to Roberts college, in Coninsofar as possible in these special stantinople, will be established at Athens, fields. For example, one investigation Greece. A tract of land just outside of is being made of coaches' salaries; Athens has been contributed by a wealthy another on the tutorial system and its Greek, who has also donated \$100,000 to many versions, and so on. The Cur- the venture. riculum group has, in addition, appointed a committee to work during the coming year in mapping out fields for a serious study of problems of curriculum and in making available to every college the experience of students who have already tried new systems and experiments.

The essential virtue of this conference lay not in given resolutions and determinations, but rather in an openness of mind, a receptivity and cordiality toward others, and a feeling of mutual purpose. Such an attitude was greatly enhanced by the thoughtful and sincere interest of the older men who spoke.

war. She is up to her neck in history." The situation in America are not comparable. America has no need for a labor movement, because socialism has essentially to do with static conditions. since we have the opportunity of moving another, easily and quickly.

Mr. Lindsay il ustrated his point by telling of three Englishmen he had net recently in America. One, a South Wales miner, was at Yale, in a good fraternity, getting along well; ano her had been a Yorkshire agricultural laborer from \$7 to \$30 a week; the third was a Birminham metal worker who has been in this country six years and is now in the University of Pittsburgh. All these men could never have done this in-England A Pennsylvania miner can move to Illinois when his own mines close down; a South Wales miner finds | American cooking, it certainly makes lows: it difficult to emigrate even to Canada.

Tracing the connection between communism and lack of baths, Mr. Lindsay said: "You can't expect to have healthy cans talk much about food. It is sur- poses. You have no small plate and the translation of Gringoire was done by points of view if the people are not clean. prisingly worth talking about. It has knife, and no fork for dessert. You Barbara Ling, '24. In the district of London where I live, such strange names. I think that the have meat and potatoes on one plate, there are a quarter of a million people! first dish I ate in America was called vegetables on another, and salad, etc.,

about the failure of democracy as Wells noodles." This I took entirely for the down and arrange all these dishes in does in The World of William Clissold, sake of the noodles. It was as if I front of you, and then begin the race. but there has been popular education in England for only fifty years.

These are some of the reasons behind. the general strike. In the first place, the wherever I go. Even at the British Everything is now clear for a straight basic industries are depressed, and the non-essential industries, such as the factories for automobiles and silk stockings, are booming. "We have our backs to the wall. A man needs clothing, food and shelter to live, and those things are hard to get in England today."

"The general strike came on us like a thief in the night," declared Mr. Lindsay. "The immediate occasion was the strange names: you expect such a lot refusal of a group of compositors to set from it. You do not eat merely for an article for the Daily Mail. And then fun, or to keep body and soul together, rorkers from the \$4000-a-year station raster to the \$13-a-weeker went out for the sake of men whom they had never seen, the miners. It was revolutionary but legal. It was merely trying to bring extra Parliamentary pressure on a representative government, something bankers frequently do. But when five million people do it, it is very inconvenient. For ten days everything was black and white, no gray. Most people in England are sitting on a fence. For ten days the fence was removed, and it was very uncomfortable. One was avowedly labor or capital."

and when it was crushed by the Government the workers went back under worse conditions than those under which Age, the Bronze Age, the Heroic Age they went out. "England is fundamentally a political country; we have a respect for law ingrained in us. Passions were very near the top during the strike, but joyed such popularity. the ridiculous was there, too, and common sense kept us placid."

The problem that produced the general strike still exists. What is the future of Great Britain to be? Various suggestions have been made, from Fordizing England-which means scrapping, and "We don't scrap, and therefore cannot compete with a country like the United States, which scraps everything"-or turning her into a museum. "We haven't enough specimens and that isn't a pleasant outlook, anyhow."

"A reorganization of our economic life is necessary. It is the only way out. The standing paradox of the man who grows the cauliflowers and mines the coal, barely making enough to live decently, and of the man who handles the bits of paper and make rather more than a competence, must be done away with.

"There is no real magic in the British Labor movement, only devotion and the human reactions of people who aren't willing to be trodden. It is not a street corner movement, but five and a half million organized voters. It is the most significant thing in England today."

In trying to work out her political democracy, Mr. Lindsay feels that the permanent civil service is of inestimable value. The best brains of the country go into politics there, as they go into business here. England needs the scientific mind applied to her problems. "In America you were born with a democ4 racy, whatever it may be now, and all you have to do is to try to keep it. England is fighting, fighting all the way."

"We are working out the different methods the utilization of the initiative and dynamic force that goes into private business for public service."

Experiments are going on here be-

The American way for a glorious low-cost trip

\$170 and up, round trip

DOWN and plan your vacation trip to Europe, NOW. Tourist Third Cabin costs astonishingly, little—little, if any, more than a vacation spent at home.

Last year thousands of students traveled by the United States Lines ships and this year will certainly show a further big increase in bookings. For these ships are your ships, owned and operated by the United States Government to give you the highest standard of service demanded by Americans. Clean, airy staterooms, inviting public rooms, the best of food, exclusive deck space and daily concerts all contribute to a delightful voyage.

Get all the facts now from your local steamship agent, or write to the address below for complete illustrated literature. Make reservations well in advance.

> The United States Lines operate the LEVIATHAN, GEORGE WASHINGTON, PRESIDENT ROOSE VELT, PRESIDENT HARDING and REPUBLIC from New York to Cobh, Plymouth, Cherbourg, Southampton, Bremen.
