It is difficult to tell just what ical pattern to supply and demand. and fall together, but if agricul-

Miss Northrup stated that from the twenties and thirties the political meat of the current campaign is being made. She summarized the role of the farmer from his prosperous World War I years, through the Depression, during which he suffered greatly, when the "support for agriculture" cry grew stronger, to the present.

The fact that in 1948 the parity price formula was given up and a sliding scale formula, which is not to the advantage of the farmer, was adopted, has caused much bickering. Other issues concerning the farmers are those of Soil Conservation, the Rural Electrification Program, Home Ownership Program, and others. Agriculture's response to these issues is a basic problem today.

Time to (hange;

especially contributed by Sara D. Roosevelt '54

The Republican cry throughout this campaign of 1952 has been "it's time for a change." This seems to many a too-oft repeated empty phrase, so they ask "why"? Why will a Republican administration put us in any better a position than we are now; and after all, what is wrong with what we have and what we have had for the last twenty years? I would like to try to answer these ques-

Foreign policy seems to be a major issue at the present time. We are in an extremely dangerous international position, which is the result of an unsteady policy, and a lack of foresight. It is useless at this point to spend time "blaming" the Democratic administration for each of their mistakes that have led us further and further from international security, with steps forward we have made, it must also acknowledge respon-

The choice before us in this election for our next president is not a clear-cut "powers of light" versus "powers of darkness" choice. er himself, still unquestionably There are valid arguments for both candidates; however, it seems to me that Stevenson is less handicapped, better prepared for the presidency, and generally more capable and realistic. The following points are a few of the reasons for the above conclusion.

Undesirable elements in both parties handicap the two candidates, but, even though living in Washington, D. C., I would choose the domestic embarrassments and corruptions of the Truman administration (which I believe Stevenson could correct as he did a similar situation in Illionis) to the isolationistic communist - baiting promises with these elements in his campaign).

I consider the trends toward isoabove the world's good is losing
