But Once A Year

A special kind of madness settles over Bryn Mawr just before Christmas. It is a combination of utter exhaustion, hope for relief if we can hang on a few more days, and a genuine Christmas spirit.

More tables are lifted during this week, more water is thrown and more people collapse in helpless laughter than during any other. A girl at breakfast murmurs "O pain, pain . . . " and the Christmas trees go up in every hall.

And so, with an odd mixture of relief and gaiety Christ-

Eisenhower's disagreement with Leonard Hall over the question of Communism in government as an issue in the next election shows that he has lost some control of his administration. Dr. Brown believes that the Republicans brought up the case as a purely political gesture, focussing attention on the previous administration's mistakes instead of on the recent Republican election losses and the criticism being leveled at Secretary of Agriculture Benson.

However, the issue may backfire the Republicans. It attacked Democrats against the Republican program; and it created adverse foreign comment.

Fear of McCarthyism, isolationists, and the opinions of military personnel are among the influences the British believe to affect the State Department. In pressing for new solutions, the U.S. succumbs to a feeling of fear and near hysteria; this affects foreign policy, and ultimately we may find ourselves with no solution at all, according to our neighbors across the sea.

Churchill's recent proposal for a four-power conference met with great enthusiasm in Britain. The negative American approach to the idea generated feeling that the U. S. is terrified of political repercussions. The "rigid" attitude of Secretary of State Dulles, and the recent Harry Dexter White case, have confirmed the bleak view of our policy which some British critics are inclined to take.

The U. S. concerns herself with Far East policy to the point of neglecting Europe, in Britain's opinion. The supposition that the U.S. thinks of Britain as being England, and not as the Commonwealth of Nations, also disturbs the British. Concerning German rearmament, the British, while sensing the necessity for it, feel that it is a serious problem, and that the U. On Tuesday afternoon The Spanish Club presented Senor Claudio Guillen, from Princeton, who spoke in the Common Room. His subject was "La novel y su lector". Senor Guillen first discussed the problem involved in studying the dreaming, while awake. novel.

There are, he said, many types of novels and, although many people classify all prose works as novels, it is necessary to distinguish among and to limit this field in order really to understand the novel.

Senor Guillen concentrated on the relation between the novel and the reader and showed the great power which the novel has over the audience. The creation of a fictitious world comes to the reader as a reality; the novel has the
