following way: Recommendation

In order to clarify the relationship between students and staff on the campus, the Executive Board of the Undergraduate Association concurs on the following recommendation:

That the manner of address between students and staff should be consistent with that which governs any relationship between older and younger persons. Last names should be used in introductions and until a mutual first name basis is established.

This resolution as such was writ-Frances Cassebaum then asked tions and in any subsequent introfor istration's contribution to Under- idea of reciprocity or mutual agreemanagers and employees, pay day concise, it is heavi'y premised on mistresses and hall announcers. the idea of individual responsibility The Administration supplies \$135 for developing a form of address sat The isfactory to the two people involv-Board, though believing that the ed. The Board realized this would Administration fee was too low, vary and that for some a mutual first name relationship would not develop and that for others it already existed.

> This resolution can have no oblially established by the two people involved. For this reason, it is not necessary to express campus-wide opinion. Nor is the agreement of the Board members meant to be inclusive of all cases. Perhaps the main difference between Undergrad and Self-Gov is that when its Boards state their policy or the opinion of the campus majority, it can never become binding on the entire student body. Although a majority opinion may influence the thinking of the majority, it does not become a part of ther views unless they themselves make it so.

> > The present system of last name-

On Wednesday, September 27, Hilda Doolittle died in the Red Cross Hospital in Zurich, Switzerland, at 75. The New York Times attests to the association which the poet had with Bryn Mawr; a member of the Class of 1909, she was often seen "on walks discussing poetry with Marianne Moore, an-William Carlos Williams and Ezra Pound, students at the University of Pennsylvania."

H. D., as she called herself, left college after two years for reasons of health, but the influence of the Greek poetry she studied here was decisive in her work. A classmate, Mary Herr, whose death preceded H. D.'s by a year, made sure that the college possessed each of the poet's publica-

Born in Bethlehem, Pennsylvania, H. D. spent her childhood in Philadelphia but after a holiday trip to Europe in 1911 lived abroad, chiefly in London and near Lake Geneva, for most of her life. In 1913 she married Richard Aldington, from whom she was later divorced.

The year 1912 saw the formation of the imagist group of poets by H. D., Mr. Aldington, and Ezra Pound as well as the first publication of H. D.'s poems. According to Mr. Pound, the principles of the group were "1. Direct treatment of the 'thing,' whether subjective or objective. 2. To use absolutely no word that does not contribute to the presentation. 3. As regarding rhythm: to compose in the sequence of the musical phrase, not in the sequence of the metronome." The verses of Sappho, Catullus, Villon, Heine, Gautier and Chaucer and the lyrics of ancient China and Japan served and than of wadding and of dead grass. as models for the simplicity, concreteness and compression of the imagist poetry.

Physical Passion

Babette Deutsch, who feels that H. D. has een "accepted as the purest imagist of them all," describes her poetry in This Modern Poetry as "polished until it has the hard luminous surface of alabaster" but "not cold," "quick with passion, pointed with concrete images," with rhythms which are "almost the rhythms of speech, but speech when it is most passionate." "Her themes are few and simple: the breathless hurt of natural beauty, the toll of a rigorous art, the agony of physical passion," say Miss Deutsch. And: "If her scope has always been narrow, her intensity remains unchalleng-

to the students of Jackson extend-students in the discussion and iming support, and to President Red- plementation aof educational polidix urging him to reconsider his cies. action.

The National Officers of USNSA are now calling on all member Alliance Head Discovers campuses to support the students in McComb and Jackson. They urge that student governments support the students and urge remedial action by the authorities, and that individual students write or wire their support also.

Support Needed

It is particularly important that the students in Mississippi be supported now, since the two demonstrations are significant extensions of the principles of mass, non-violent protest. This is the first time high school students have taken the initiative in staging mass demnostrations; the case in Jackson shows a significant overlapping of the areas of civil rights and civil liberties.

The National Officers of USNSA are, therefore, urging all concerned student groups to do all in their power to support the students in Mississippi, and to make known to students and non-students in their areas the issues involved.

Old Letter of J. Kennedy

Rummaging through the Alliance archives, the current president discovered the following letter from a one-time Alliance speaker. It is addressed to Charlotte Graves, President of Alliance, 1957.

United States Senate Washington, D. C. January 22, 1957

Dear Charlotte: Many thanks for your letter of recent date.

I certainly appreciate you writing me and I want you to know that I enjoyed my visit to Bryn Mawr very much. I am returning the check as I was very glad to be with you that night. My brother had told me some tales about girls from Bryn Mawr, but I found out that his report was somewhat exaggerated.

With every good wish. Sincerely yours, John F. Kennedy

"Tareyton's Dual Filter in duas partes divisa est!"

says veteran coach Romulus (Uncle) Remus. "We have a saying over at the Coliseum - 'Tareyton separates the gladiators from the gladioli'. It's a real magnus smoke. Take it from me, Tareyton delivers de gustibus—and the Dual Filter does it!"
