

**Blick auf die verschneite alte Kaiserstadt
vom Petersberge.**

This old goslar card is the way the country
looks, except that it is ironed out flat - it is
all snowy & starry & biting cold & they talk
such a funny language! Sivriam has just
sat down to work on Russian for the first
time & our wee grammar predicts a working
knowledge of the language by 100 hrs. of study
so here goes! We have a letter of indultification
written in Russian - that & a letter head from Moscow
will do to ~~cut our teeth~~ on anyway.
