Blue Cross is for hospital bills

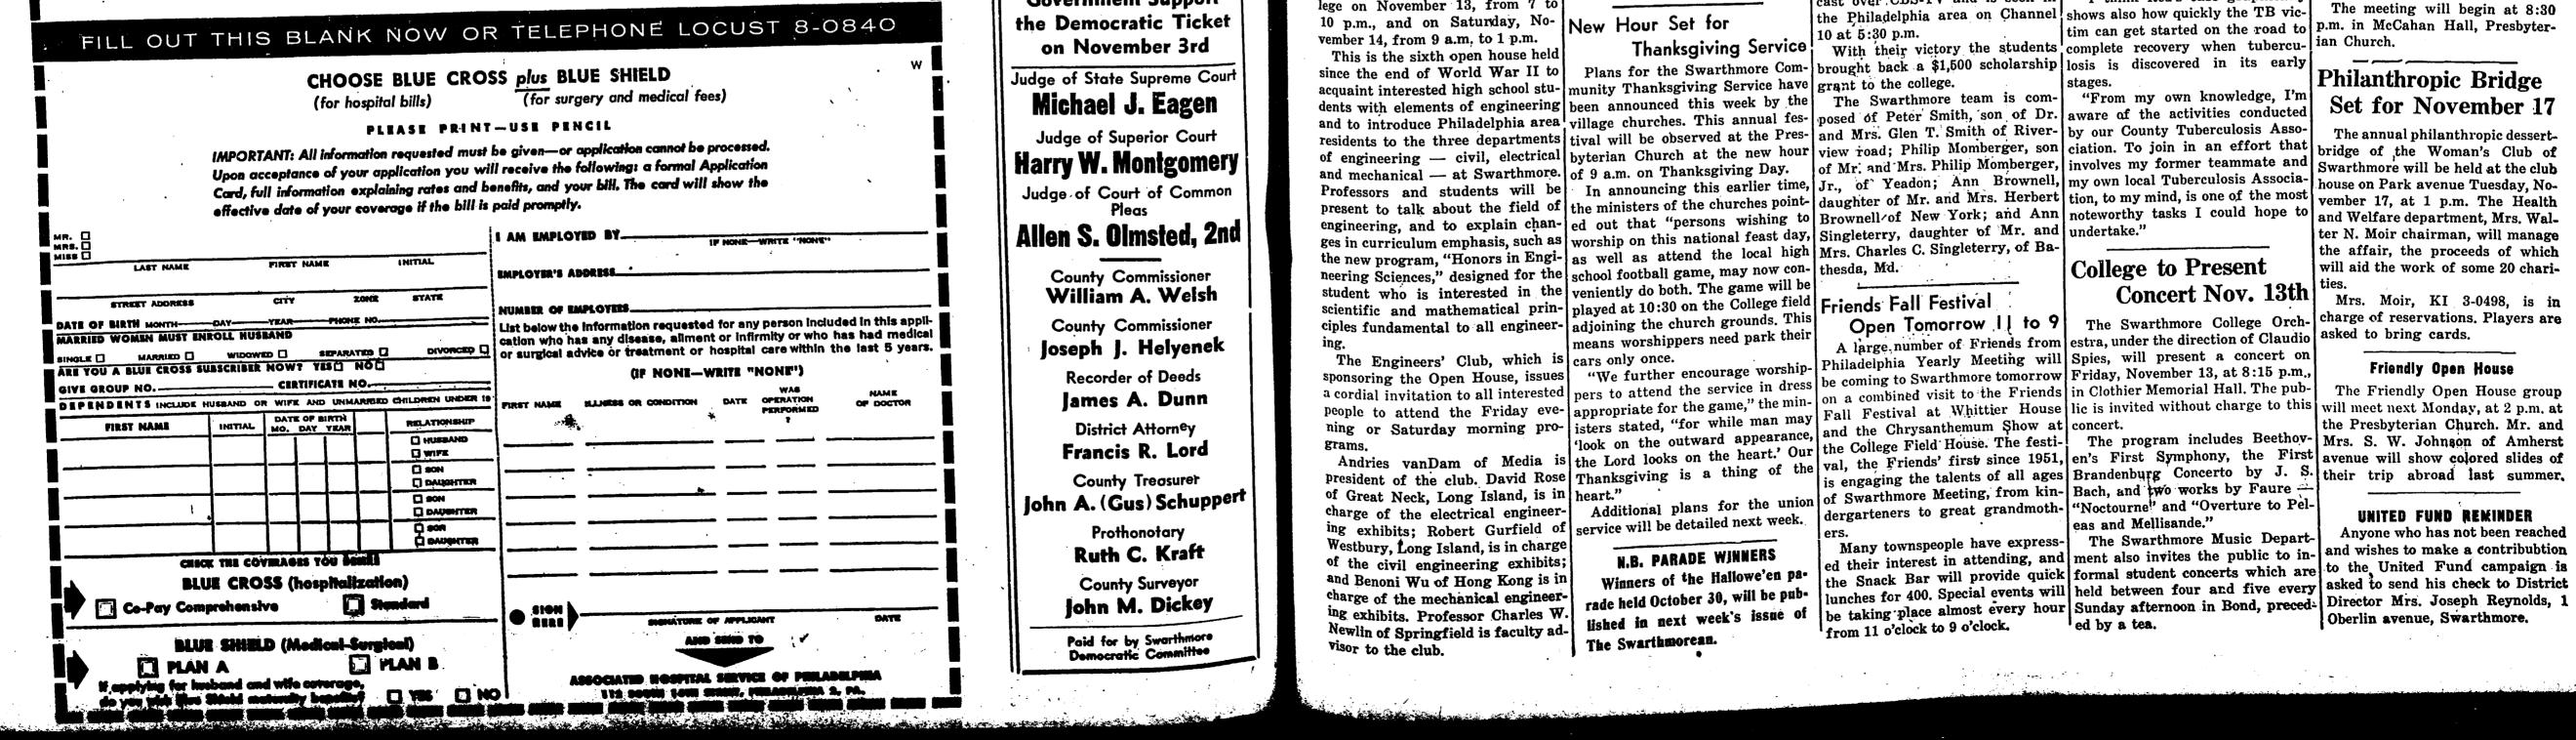

Now is your opportunity, if you are self - employed, retired, unemployed or working at a firm of less than 10 employees, to join these famous non-profit Plans that so adequately protect health and budget. This offer will be of special interest to a merchant, lawyer, farmer, widow, domestic worker, student, etc., and is limited to residents of Philadelphia, Montgomery, Bucks, Chester and Delaware counties.

UNDER BLUE CROSS you have a choice of Standard coverage or the more liberal Co-Pay Comprehensive coverage which provides more benefits, higher maternity allowances—even diagnostic services in the hospital's outpatient department or doctor's office. Why Are School Taxes So High?

It was our intention to send this Bulletin to our members. However, it is such an important matter of interest to property owners, we have decided to insert the message as an advertisement.

In order to get an answer to this question which has been the concern of Swarthmore Property Owners, as well as your Directors, we arranged for a joint meeting of your Directors and Messrs. Spencer, Carpenter and Morey representing the School Board. Mr. Spencer is Treasurer of the Board and Chairman of the Finance Committee. Mr. Carpenter is Chairman of the Property Committee and Mr. Morey is Supervising Principal and in charge of the Administrative Functions of the Swarthmore-Rutledge Union School District. We were sure that, from these men, we could get the answers to the questions that we planned to ask.

This meeting took place on Monday evening, October 26th, but the basic reasons for the high taxes have been known to many property owners, including your Directors, for a long time.

In the first place, our Borough has fixed geographical limits and is almost entirely residential. There are no Manufacturing Plants to help bear the Tax Burden. Consequently, a large part of the money required for the operation of the Borough and the Schools must come from taxes assessed on real estate. There is not enough property, and probably never will be, to produce the necessary revenue to operate the Schools, except by a tax rate of 62 mills, or perhaps more. Some time in the future, some more equitable system of taxation may be

While you may have elected the members of your School Board, they are governed by rules and regulations of the Department of Education at Harrisburg, over which the Board has no control. This was clearly evident when our questions were answered. For instance—Why should the salary of the Cafeteria Manager appear in the Budget under the heading of Education-Expense? This item, and others of a similar kind, are classified thus on the Budget Forms. Evidence of control from Harrisburg can be clearly seen throughout the operation of the Schools. It is no wonder that the average citizen has difficulty in understanding the Budget. After asking 26 questions, we commenced to understand some of our School Board's problems.

An amendment to the State Constitution is pending which would increase the Borrowing Capacity of the Swarthmore-Rutledge Union School District from seven per cent of Assessed Valuation as at present, to 15 per cent. The present Assessment is \$8,783,195. This is Borrowing Capacity and it must be remembered that Bonds

Our Directors are unanimously of the opinion that the Cafeteria should be entirely self-supporting. This means that the salary of the Cafeteria Manager, the amortization of equipment and overhead should be included in Expense and balanced by funds received from patrons. This is a service for the benefit of a minority at the expense of the taxpayers at large and they should not be charged with the expense.

We also recommended that in the future, the maintenance of all school property be limited to the value of

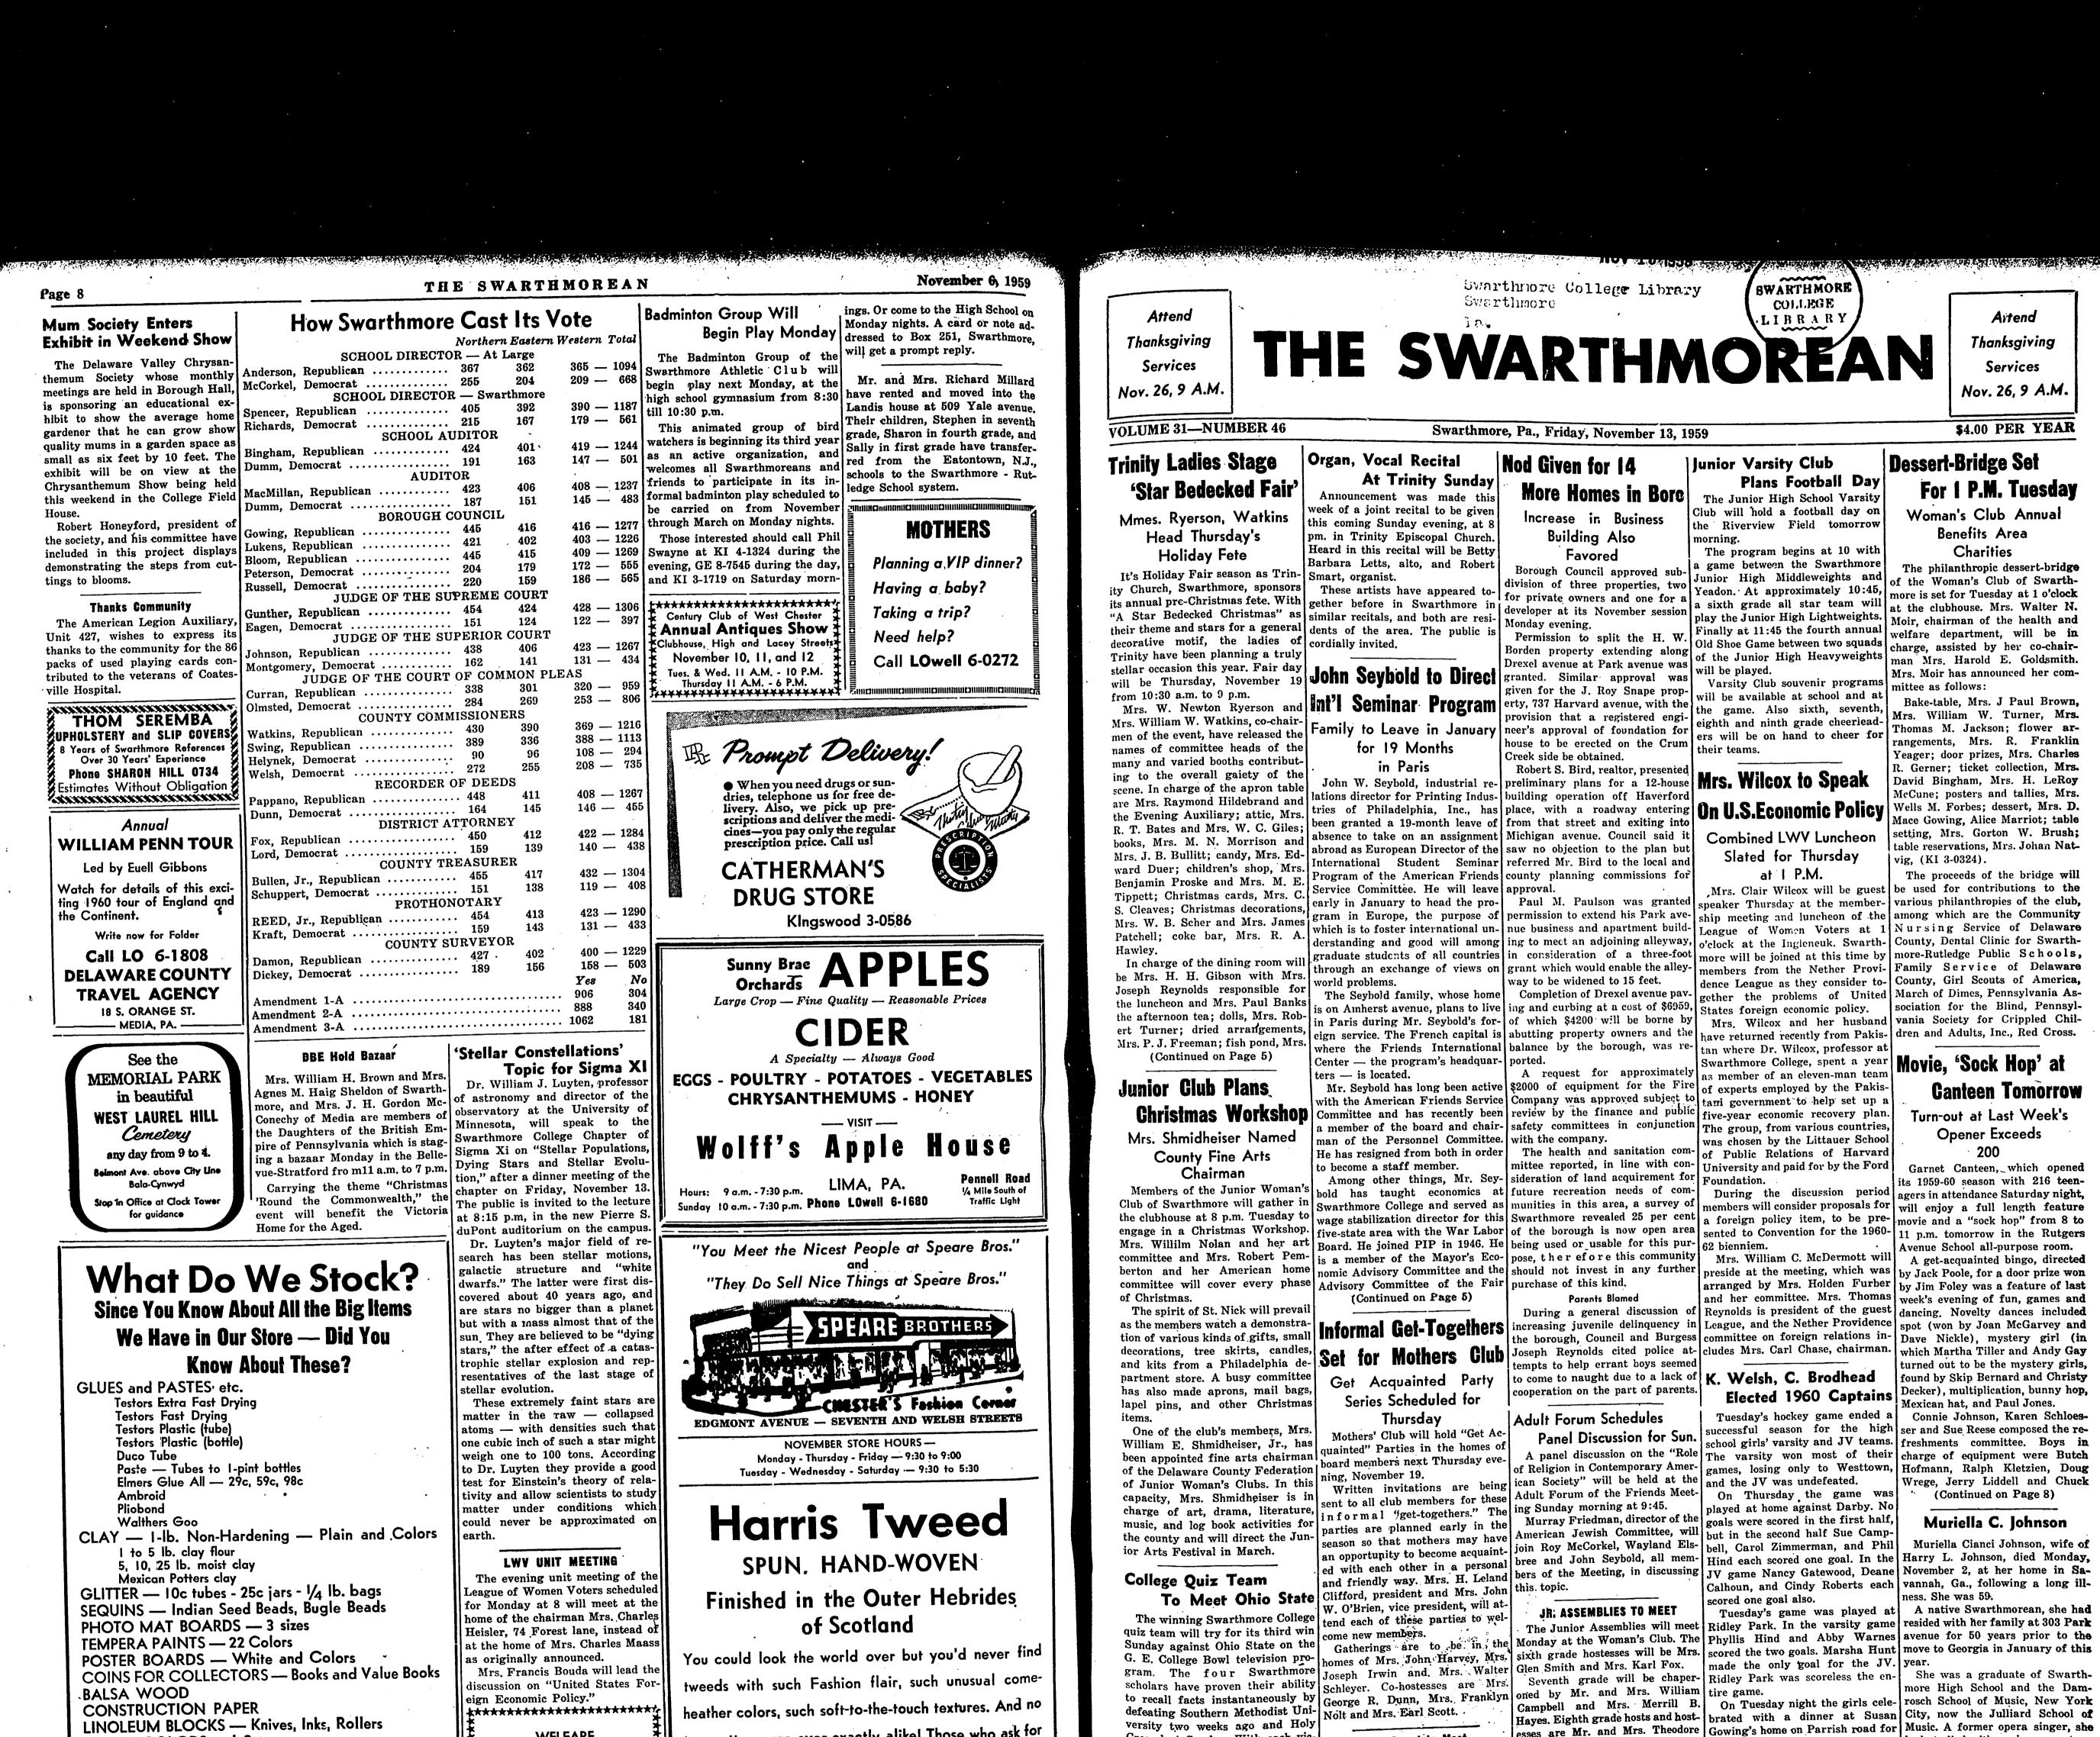

Your Board of Directors are unanimous in feeling that this conference was rewarding and would like to see more such meetings in the future. After more than two hours of discussion, the meeting adjourned with a see more such meeting aujourned with a vote of thanks to Messrs. ## ... a special service

Did you ever pause and wonder how long you could survive without water, how you could keep your business operating, your household functioning properly, your lawn and garden growing, your clothing clean, your body alive? Not very long.

Occasionally some unforeseen mishap does occur, cutting off a neighborhood's supply of Pure Springfield Water.

When that happens, and such events are rare indeed, the Philadelphia Suburban Water Co. is prepared to provide an emergency supply. In practically no time at all, a gleaming tank-truck bearing 750 gallons of Pure Springfield Water rolls up to the doors of the apartment house, office building, school or whatever structure is affected, to provide temporary relief to its occupants.

This community service is just another example of the good neighbor policy of the Philadelphia Suburban Water Company.

The Board had naturally assumed the administration would go over the matter with the teachers.' The Board granted Mrs. Hurst's request for a private meeting between teachers and Board at an early date when answers to the teachlers' long list of questions regarding desirability of change, reporting philosophies, and methods of evaluating pupil progress could be given. The teachers' statement said that in a poll of teachers it was revealed that 13 out of 14 primary teachers prefer conferences only, the other prefers a combination of conference and report cards. However, of intermediate teachers eight out of 12 preferred the combination, two preferred conferences alone, and two had no preference. A mother and leader in local educational circles, who had been present at the meeting when the Board had originally decided in favor of a change, stated "It was my understanding that this was to be a temporary measure while a study goes on, to tide over while parents are yapping each way. I personally feel it should be a *long* study before the Board gives any spur of the moment answers on specifics, and I Middletown Road — Media, Pa. To the Editor:— It is most gratifying to announce that the total of the UNICEF returns is \$576.17. Despite inclement weather, the young people of Swarthmore and Rutledge loyally supported the world's needy children.

We sincerely wish to thank the several individuals and groups which have made the program successful. We are grateful for the willing support of the staffs of the schools, the Trinity Church, the Girl Scouts, the Boy Scouts, and others.

Swarthmore and Rutledge are to be commended for the participation of almost every household on Hal-

Laments Program Drop

To the Editor:-

Those of us who admired the comments of Ed Randall in his "Let's Be Friends" programs on WCAU are grieved he has been dropped for cheap music.

Wouldn't it be a good idea if many of us wrote to radio station WCAU, Philadelphia 31, expressing our regret?

We might also write to other Philadelphia stations asking them if they couldn't put Ed on.

After visiting eight or ten stores and if you are buying like crazy you might end up with a drawn look. (The following week you could a wind up with an "overdrawn" look!)
