SUMMER CLUB **DRAWS** 170

The, first week of SRA Summer Club, the members, ranging from three years old to next years sixth graders, spent their time getting acquainted with each other, their teachers, and the activities which will be keeping them busy for the next six weeks.

Highlighting the three-yearolds' first week were inside activities such as crayoning, pasting and coloring. Under the leadership of Sue Beatty assisted by Sandy Taft, Cacki Espenschade and Sue Petroskas, they also enjoyed outdoor play on the swings and sliding boards.

The four-year-olds, led by Mrs. Marge Wood, talked about their houses and families. Assistants Janet Fuoss and Sue Scott read stories and played records about houses, while the children painted pictures of their homes.

The favorite activity of the Kindergarteners seemed to be painting. Joan McKinnell, assisted by Kitty Wynkoop and Marianne Burtis also taught the children how to use various rhythm instruments.

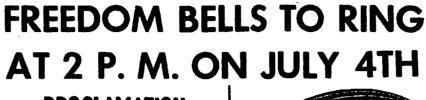

New to many of the first graders, were the activities of weaving and paper folding, introduced to them by Ann Hewes, Karen Schloesser and Jane Haron. The group also enjoyed a special music period on Thursday during which they played band instruments and musical games. The second graders started their trip around the world with a visit to Japan. Several children brought items from or about Japan for the whole class to enjoy. Jana Kingham and Gaynor Shay led the group in singing, clay modeling, painting, and outside games. The third and fourth graders, under Lee Raynor's instruction. made rock creatures and paper mosaics of Disneyland characters. To end the week, grades three through six divided into six teams for a scavenger hunt. The fifth and sixth graders played a variety of outdoor games such as softball, whiffleball, capture the flag and bombardment, organized by Tom DeLapp, Ed Michener, and Rick Martin. Led by Mrs. Jean MacKay and Jan Turner the group plans to start making a scale model of Disneyland and do more carpentry work. The week was climaxed by a Walt Disney Cartoon Parade and a popsicle party for all.

Hood 3. and shattered the 35. pool record of K. Hutton of Colonial Village. John Schmidt's junior boy first 37. reset the 37.2 team mark of J. Cushing.

Ending breaststroke events only one point behind the opponent, Swarthmore began to sink in freestyle, and was swamped in butterfly despite Jack Cushing's intermediate boy second 31.4 moving the old team record of S. Robinson up from 31.5, and Maje Gerner's junior girl second 33.6 (and Ann Michener's third) bettering the old 35. team mark of A. Townes.

Reset Record

Swarthmore captured only one out of eight relays but intermediate girls Ann Townes, Barbara Gerner, Peg Winch and Sue Brown thereby set a new 2:01.2 pool and team record. Colonial Village held the pool record at 2:01.6 and the same team except with C. Espenschade instead of S. Brown had set, the previous 2:03.2 team mark. However, junior girls (A. Michener, M. Gerner, S. Hosford and Marcia McCurdy) set a spectacular new team record 2:03.7 (only .4 slower than the 2:03.3 League and pool of 1:42.9 (previous record record of CV) as they came in second to Martins' new 2:02.7 league and pool mark. The old team record of 2:08.4 for this event was set by Michener and Gerner with M. Turner and P. Schmidt. The old league and pool record was held by CV. Nancy Kirkpatrick's inter-

mediate girls freestyle first 27.7 took the pool record previously set at 27.8 by M. Randall, CV and tied the league record of B. Bartlett, Rose Tree Woods. Insufficient diving entries

plunged Swarthmore deeper in arrears.

Summer Lacrosse

Page 8

Local residents have been getting a fine lacrosse treat this summer as the Philadelphia Suburban Lacrosse League swings into its third season. The calibre of play has increased greatly and the competition has been keen.

The league is divided into major and minor divisions with the veterans playing in the major league and the beginners to Philadelphia. They will reand high school players in the minors, with four teams in each group. All in all, about 180 players are participating, coming from all walks of life, many colleges and high schools; ranging in age from 14 to 44 and traveling from Trenton, Wilmington, West Chester, Morristown and many other points.

Bob McHenry's Ottawas will be defending their major league championship for the second year in a row. The other big league entry from Swarthmore is Brook Cottman's Mohawks. Swarthmore members of this team are Chris Decker of Penn, Duke Henderson of Tufts, Terry Ennis of Dartmouth, Dan Jackson of Princeton, Ralph Kletzien of Wooster, John Wigton of Grove City, and Jim Noves of Amherst. Members of the Ottawas

locally are: Bob Frost of Swarthmore High Ed Harris of Denison, John Lange of Princeton, Bob McKelvey of Lehigh, Ron Taylor of F. & M., and Dave Grooters. At present the Ottawas have won two and lost one, and the Mohawks have lost all three played. The potential of the Cottman-Noyes combination is very great, and they could be the surprise team in the league, once started.

The two teams representing Swarthmore in the minor league are the Arrows, coached by David Burdge of Benjamin West avenue, and the Chiefs coached by Robert Sutherland of Chester road. At present the Chiefs have won four and lost one, and the Arrows have won one and lost three. Members of the Chiefs' team are:

Bill Allen, Ned Coslett, John Derickson, Rick Filler, Tim Filler, John Frost, Carl Gersbach, Sam Hopper, Tim Jenkins, Dick McCurdy, Dino McCurdy, Jon Speers, Sandy Thompson, Dick Wagstaff, Jim Hunter and Doug Dumm.

Members of the Arrows, which are made up of mostly out-of-borough-boys, are Rick Gwinn, George Hamilton, Jimmy Hayes, George Rivello and Doug Sutherland. Games are played on the field

next to the tennis courts at College avenue and Chester road on Monday, Tuesday, Wednesday, and Thursday nights beginning at 6:30 p.m. Local residents and out-standing "lacrossers" Avery Blake, Henry Ford and David Burdge serve on the executive committee of the league and represent the Swarthmore division. Millard Robinson, local high school coach, is commissioner of the league and any information regarding the league should be directed to him.

In this third season everyone has been happy about the progress and development of the league play, but the thing ROSP has been happy about the been the cooperation of many interested individuals giving o their time to coach, officiate and assist in organization, along with Swarthmore College's contribution of the playing field. The season is composed of nine games per team and will be concluded August 1 when the Algonquins face the Mohawks at Swarthmore. This will be followed with the annual North-South All-Star game the next week, after which the All-Star team of the league will face other all-star contingents from the East Coast.

Bob McHenry and George Corrigan of the Ottawas have league, and in the minor league Rick Filler has been a high scorer for the Chiefs.

"I'm going to take part of my summer vacation every year to hike on the Appalachian Trail so I'll have it finished by the time I am 15." So said bright eyed, tired, but enthusiastic eight-year-old Marc Boyer, son of Mr. and Mrs. Clarence Boyer of Dickinson avenue who joined his parents and Dr. Frederick W. Luehring of North Chester road for 17 days of hiking and conquering 110 miles of Maine's wilderness, the most rugged part of the 2025 mile long Appalachian Trail.

They began at Grafton Notch in western Maine and proceeded over Bald Pate, Bemis, Saddle Back, Spalding, Sugar Loaf, and the Bigelow Range Mountains to the Kennebec River. Some of the peaks are over 4000 feet high. The Bigelow Range includes the famous Myron Avery Peak named in memory of the person most influential in the development of the Appalachian Trail.

Edward Forstall of Princeton avenue, and Mr. and Mrs. James Hornaday of Dickinson avenue joined the hiking party for 12 days in the middle of the hike. They covered approximately 90 miles within their limited time. Mrs. Hornaday did not hike but gave major assistance to the hikers by driving her car with food and sleeping gear to convenient locations. The roads in Maine are few and primitive, and access to the Trail by car is often not possible. Mrs. Hornaday's drives, one of them 40 miles, to replenish the larder after three days hiking by the group was a great boon by reducing the weight of the otherwise 30-45 pound packs carried on their backs.

S4.50 PER YEAR

"I'm going to take part of my summer vacation every year to hike on the Appalachian Trail so I'll have it finished by the time I am 15." So said bright eyed, tired, but enthusiastic eight-year-old Marc Boyer, son of Mr. and Mrs. Clarence Boyer of Dickinson avenue who joined his parents and Dr. Frederick W. Luehring of North Chester road for 17 days of hiking and conquering 110 miles of Maine's wilderness, the most rugged part of the 2025 mile long Appalachian Trail.

They began at Grafton Notch in western Maine and proceeded over Bald Pate, Bemis, Saddle Back, Spalding, Sugar Loaf, and the Bigelow Range Mountains to the Kennebec River. Some of the peaks are over 4000 feet high. The Bigelow Range includes the famous Myron Avery Peak named in memory of the person most influential in the development of the Appalachian Trail.

Join Party

Edward Forstall of Princeton avenue. and Mr. and Mrs. James Hornaday of Dickinson avenue ioined the hiking party for 12 days in the middle of the hike. for a visit in Swarthmore. They They covered approximately 90 miles within their limited time. Mrs. Hornaday did not hike but gave major assistance to the hikers by driving her car with food and sleeping gear to convenient locations. The roads in Maine are few and primitive. and access to the Trail by car is often not possible. Mrs. Hornaday's drives, one of them 40 miles, to replenish the larder after three days hiking by the group was a great boon by reducing the weight of the otherwise 30-45 pound packs carried on their backs.

> Ethelyne Boyer, it was agreed, was the most important member of the party. She planned all the meals for 17 days. procured the food best suited to camping, did all the cooking over open fires. Ed, Jim, and Clarence rustled the wood and kept the fires burning.

One Mishap only mishap was a

sprained wrist suffered by Jim Hornadav when he fell into a hole. Minor aches like corns and bunions were relieved by the ministrations of Ethelyne. The greatest deterrent to enjoyment, which no hiker escaped, was the infernal ravages of gnats and flies which left marks not soon to be eradicated.

Each day brought new wonders and some hardships. Marc pointed out the biggest boulder and counted a dozen ing Mr. and Mrs. Lawrence trees growing on it. Speaking to the group on the subject, "The Spread of Urban Problems," and delineating the problems and challenges that lie ahead for those engaged in community planning, Waterman said. "Sharp economic distinction has deterred pressure on social barriers. The Negro population has, in the main. occupied the status of the city's poor and underprivileged. But. as the population increases. not only will the suburbs continue to expand geographically, but they too will be affected by population density and many of the complexities of urbanization."

They were encouraged by enthusiastic accounts of Harlem experiences enjoyed last year by Lynn Lewis, Reggie Harvey, Craig Nelson, Janet Edwards, Bill Ryerson, and Raquel Reingold.

The group hoped to gain a better understanding of the problems facing the various cultural and nationality groups who have settled in one of the most highly congested and depressed areas in the United States. They lived among ther people in East Harlem, joining briefly in their daily life routine, interviewed people who have been devoting themselves to helping solve the more urgent problems, and attempted to understand more clearly the relationship these problems have to difficulties the students are facing in their own lives and communities.

SRA CLUB SLATES INFORMAL SHOW Drama Group Will Give **Performance** Thursday

Page 8

One of the interesting events of the S.R.A. is the Dramatic Club's Workshop performance next Thursday evening, July 25, at 8 p.m., when the teen-age boys and girls of this group will show off some of the things they have been doing.

The program, which will b presented in the All Purpose Room of the Rutgers Avenue School, will consist of a variety of dramatic selections, including a one act play, "Sorry, Wrong Number." Scenes from the following well-known plays will also be given:

"The Bad Seed," "The Miracle Worker," "Tom Sawyer." "The Glass Menagerie," and Shakespeare's "Taming of the Shrew" and "Macbeth."

Emphasis will be placed of the individual performances rather than on the staging of this very informal program. Those who will participate

are: Lee Barford, Pamela Cokely, Janet Goldwater, Mandy Hynes, Arthur Johnson, Frances Hoenigswald, Holly Kerr, Gretchen featherstone, Harold Morgan, Tanya Pflugfelder, Carolyn Plumer. Constant Plumer, Tim Shuba (who will also act as Stage Manager), Catherine Tidball, and Terry Talley.

Publicity is in charge of Gretchen Featherstone and Pamela Cokely. Mrs. Stuart

Graves is directing. The performance is open free of charge to all who are interested.

NATURE CLUB ADDS VARIETY TO S.R.A.

Under the direction of Ted Hesser, the SRA's Nature Club of a dozen boys and girls began to explore the world of woods and water July 1st. Headquarters room in the elementary school echoed with woodsy sounds as the youngsters learned to identify birds by their songs.

A scouting trip into the near by woods revealed over a dozen birds the first day. Later, a trip to a rocky stream revealed secrets of insect larvae, the Black-nosed Dace, and stirred up a bee's nest;

THEATRE TO PRESENT 'MISTER ROBERTS'

With the production of Oscar Wilde's "The Importance of Being Earnest" this week, the Robin Hood Theatre, Arden, Del., begins the second half of its season. The comedy will be playing at the theatre through Saturday.

"Mister Roberts" will open Monday evening at 8:30 and play through Saturday. All military personnel are invited to attend the opening production Monday evening, or next Saturday's twilight matinee at 6 p.m.

BEWARE THE ECLIPSE

The July 20th eclipse of the sun will take place tomorrow afternoon at approximately 4:40. Among those concerned. along with the astronomers, is. the Delaware County Branch, of the Pennsylvania Association for the Blind which earnestly warns children and adults NOT to look at the phenomenon directly.

"The eclipse is a danger to adults and children," the Association states in part, adding that sunglasses, smoked glass, exposed photographic film, and welder's goggles are definitely NOT safe for watching the eclipse. "Only by indirect methods, such as on television or simple projection devices, can this phenomenon be observed without risking damage to the eyes."

Then it explains why: "During an eclipse, even though the dazzling visible rays of the sun are blocked, dangerous infra-red rays are nevertheless emitted. These rays, when focused on the delicate retina of the eye, can cause

harmful burns much the same as a magnifying glass can focus the sun's rays on a piece of paper and burn it. Because the retina is not sensitive to pain. the victim never realizes he has been harmed until too late. Such retinal burns are incurable, and the victim has a blank | Tuesday. spot in his field of vision where the burn scar remains on the retina."

THE SWARTHMOREAN

Well, that should be enough o convince any sighted persons of the dangers. However, there are some die-hards old enough to remember the 1932 eclipse; were lucky enough to have been in the part of Maine where the eclipse was total and were well enough informed to think they saw the "corona" and probably fortunate enough to have escaped eye damage.

Some die-hards are lucky. At any rate, below is an illustration of one of the ways to "view" the eclipse safely. The die-hard who thinks all of this is poppycock should ask, for example, one of the 170 Australians who suffered eye damage during "their" last eclipse.

## Pare ( P. O. INITIATES **NEW ZIP CODE** SWARTHMORE'S IS 19081

Postmaster Charles H. Grier has asked everyone in Swarthmore to use the five-digit ZIP Code on all their correspondence to speed mail deliveries and reduce the chance of missent mail.

ZIP Code, the Post Office Department's revolutionary new system of improved mail dispatch and delivery, went into effect nationally on July 1. Mr. Grier stressed the importance of all citizens learning

their ZIP Code and using it in their return adress on all correspondence. "In answering mail. "he said. "ZIP Codes taken from return addresses on incoming mail should be used. It should FOLLOW the city and state in addresses." As an example:

#### The Swarthmorean 333 Dartmouth Avenue

Swarthmore, Pa.

19081 The new ZIP Code plan, for the first time will permit the Post Office Department to short-cut repeated address

reading. "The address on mail must often be read as many as eight or ten times by postal employees, to get it to the proper stination," Mr. Grier said. "Each handling slows the process of mail dispatch and adds to the opportunity for human error.

"With ZIP Code, a clerk needs only to glance at the code to know immediately to what national area, state and post office the letter is destined, and to speed it on its way, cutting up to 24 hours off the time between deposit and delivery."

Mr. Grier said that when ZIP Code is in full swing, the United States will have "the most modern system of mail existence."
